Follow-up Year

Source: Institutional Research, Planning and Info Management/NSLCH

■ Within One Year    
 ■ Within Three Years

Methodology: A cohort of students representing each graduating class is submitted to the National Student Loan Clearinghouse. Data is returned to the institution showing the graduates' subsequent enrollment at any institution. The student's degree status at the subsequent institution is not known, so it cannot be assumed that the purpose is to attend graduate or professional school. Therefore, IRP has only included graduates in the percentages if the subsequent institution is a four-year institution.

**This report is updated annually after June 30th of each year.**
